

Switches = Radio Shack #275-409 (two per pack) SPDT miniature slide switch

Alignment LED = Radio Shack #276-351 (two per pack) 1900 mcd LED

Testing LED = most any surface mount or axial lead LED

I like using yellow to green color since the eye is most sensitive to that range but it doesn't matter a lot.

The one I use is about 50 mcd brightness. I run it about 30 ma even though it is spec'ed at about 25 ma.

Alignment resistor = 82 ohm 1/8 or 1/4 watt

Testing resistor = 56 ohm 1/8 or 1/4 watt

Dropping Diode = Radio Shack #276-1101 (two per pack) 1N4001 Si Diode

Battery Holder = Radio Shack #270-412 triple AAA size
